

Get started in 5 minutes

Your visual guide to Taskative

1

STEP 1

Create your team

Tap the green + button, choose "Group", name it and confirm. Your team is ready.

Invite your teammates

Open the group, tap "Share invite link". Send it via WhatsApp, email, or any app — they join automatically.

The screenshot shows a mobile app interface for creating a new task. At the top, the status bar displays the time 18:29, signal strength, and 100% battery. The app title 'Create New Task' is centered at the top with a close button (X) on the right. Below the title, a green bar displays progress: 'Tasks (this month): 0/10 (Remaining: 10)' and 'Templates (this month): 0/2 (Rem: 2)'. The main form area is divided into sections. The first section, 'Task Name for Template', contains a text input field labeled 'Task Name', a toggle switch for 'Assign to Yourself' (which is currently turned on), and a dropdown menu for 'Select Group (Optional)' with the text 'Select Group (for group task)' and a downward arrow. Below this is a large green button labeled 'Create Task'. Underneath the button are three expandable sections: 'Details' with a document icon, 'Date & Time' with a calendar icon, and 'Reminder' with a bell icon. At the bottom of the screen is a 'Recurrence' section with a circular arrow icon, a radio button, and a dropdown arrow.

Tap + → Task. Add a name and date. Assign it to yourself or a teammate. Use checklists for multi-step work.

4

STEP 4

Reuse routines as templates

Save weekly tasks (closing shift, weekly report, deep clean) as templates. Recreate them with one tap later.

5

STEP 5

Stay in sync

Taskative notifies you when teammates assign tasks, comment, or mark work done. Manage alerts in Settings.
